INSURANCE & MORTGAGES

— CONTRACTOR INSURANCE FOR PEACE OF MIND

As an independent contract worker, you can dedicate more of your time to the services and solutions you provide for your clients, but you are also left vulnerable to greater risks.

As contractor support specialists, we know the importance of having appropriate insurance cover and a provider that offers a fuss-free, tailor-made service.

If you prefer to operate through an umbrella company, your insurance needs are usually covered by your payroll provider. If you are unsure about the cover you need, Contracting Scout can help you determine which policies are right for you and find you a suitable provider.

Alternatively, you may be looking for a complete business insurance solution for your limited company and we can help with that too. Based on your individual circumstances we can recommend a tried and tested provider that will make sure you are covered for all the exposures you face.

A COMPLETE BUSINESS INSURANCE SOLUTION

We will only refer you to one of our partners once they have been assessed by our experienced team and we are satisfied that they can deliver a comprehensive service at a competitive price.

Our partners provide:

A straight forward policy package

Cover for up to 6 years previous work

Quick & easy application process

Flexible payment options

A price promise guarantee

Packages include:

Professional Indemnity Cover	£1 million
Public Liability Cover	£5 million
Employers' Liability Cover	£10 million

Plus additional benefits:

Personal Accident (weekly benefit)	£500
Personal Accident (death benefit)	£100,000
Directors' and Officers' Liability	£100,000

— NOT A TRADITIONAL LENDER

Even the most experienced contractor can need a little extra help at times, especially when it comes to securing a mortgage.

Traditional lenders will try to compartment contractors into either the 'self-employed' or 'employed' category, but this ignores large parts of a contractor's income. More often than not, a contractor will aim to structure their finances in the most efficient way, but this only makes proving your income via company profits or pay checks even more difficult.

— CONTRACTOR FOCUSED

Our providers focus specifically on mortgages for contractors and will work directly with underwriters to ensure the mortgage funding you receive reflects your true earning potential.

Our Providers can assist with:

First time buyer
mortgage

Re-mortgaging

Buy-to-let
mortgage

Self-Build
Mortgage

— WHAT MAKES THEM DIFFERENT?

The mortgage products available through our providers are actually no different to any other mortgage solution. However, the key difference is in how our brokers use their expertise and insight into the contractor market to present your information to lenders in the best possible way. With their help you can significantly improve your chances of passing the lenders eligibility criteria and assessment process.

— £500 REFERRAL BONUS

With Contracting Scout you will receive up to £500 for every person you refer that goes on to use one of our recommended providers.

Simply contact us with their details and Contracting Scout will take care of the rest!
